Dear Parents and Carers

It is tradition that in the summer term, our year 6 children attend a residential trip for 2 nights away with their cohort and class teachers. Before confirming the booking, we would like to gauge parental feedback.

As a small school, our Y6 cohort is a small group of children. This year, we would have 9 children who attend. Our proposal is to offer the trip to both Y5 and Y6 to allow for a larger group and further peer interaction. We appreciate that this would be expensive a for consecutive two years so we would plan to only run the residential trip every other year.

If we decided on a year 5 and 6 residential, this would mean when current Y5's are in Y6 they would not have a second residential (due to cost for parents) but they would have a special Y6 only trip planned to celebrate end of year 6-

The trip will cost between £120-£160 per child, dependent on numbers, in addition to being heavily subsidised by school. Payments can be made in installments over a number of months.

Please could you follow the link in the parent survey that will come through next which asks;

Would you prefer

A: A year six only residential

B: A year 5 and 6 residential

We will then look at the feedback and confirm how we will proceed.

Many thanks,
Mrs Callaghan

Head of School
